PROFESSIONAL SUMMARY

Professional summary for a Security Engineer at Lead level. With over 8 years of experience in the field, I have a proven track record in leading security initiatives, implementing robust security measures, and ensuring compliance with industry standards. My expertise lies in threat analysis, vulnerability management, and security architecture design.

WORK EXPERIENCE

Lead Security Engineer | Apple Inc.

01/2015 - Present

Responsible for leading security efforts across various projects, ensuring the protection of sensitive data and systems. Key achievements include the implementation of a comprehensive security framework, leading a team of security professionals, and conducting regular security audits and assessments.

Security Engineer | Tesla

06/2012 - 12/2014

Worked on enhancing the security posture of Tesla's products and services. Involved in the development of security protocols, performing penetration testing, and collaborating with cross-functional teams to integrate security measures into the product development lifecycle.
