PROFESSIONAL SUMMARY

Professional summary for a Data Scientist at Mid-level. Experienced in developing and implementing data-driven solutions to complex business problems. Proficient in machine learning, statistical analysis, and data visualization. Strong background in computer science with a PhD in Data Science from a top-tier university.

WORK EXPERIENCE

Data Scientist | Tesla

01/2015 - Present

Leading data science initiatives to improve product performance and customer satisfaction. Utilized machine learning algorithms to predict maintenance needs and enhance vehicle safety features. Collaborated with cross-functional teams to integrate data solutions into product development cycles.

Data Analyst | Apple

06/2012 - 12/2014

Analyzed large datasets to identify trends and insights that informed business strategies. Developed predictive models to forecast sales and customer behavior. Presented findings to senior management to support decision-making processes.

EDUCATION

PhD in Data Science | Computer Science

Harvard University | 2013

Master in Computer Science | Artificial Intelligence

Stanford University | 2011

Bachelor in Computer Engineering | Software Engineering

Technical University of Catalonia (UPC) | 2009

SKILLS

Python • R • Machine Learning • Data Visualization • SQL

LANGUAGES

English: Fluent | **Spanish**: Native

CERTIFICATIONS

Certified Data Scientist • Machine Learning Certification
